Matías Biasioli

FULL STACK & MOBILE DEVELOPER

ABOUT ME

Full Stack and Mobile Developer specialized in React.js and React Native, focused on building scalable, fast, user-centered interfaces, with backend development in Node.js, MySQL and Supabase. Complementary experience in e-commerce solutions and corporate websites. I integrate advanced AI tools (Claude Code, Google Gemini) into my daily workflow to speed up debugging, automate testing and resolve architectures in an agile way.
